INTRODUCTION

THE WORLD

The world is too large for anyone to map and too old for scriptures to fully record. Cities grow from the ruins of fallen civilizations before them and new technology thrives alongside ancient devices. Adventurers return from every direction with tales of bizarre places, both wondrous and horrific.

You are an Adventurer, braving the unknown in search of riches, fame, knowledge or power.

THE GODS

Tribesmen paint cave walls with their image and each corner of the world has its own folklore. The belligerent men of Baru, the stolen city, worship the four brothers, while the pale pilgrims seek the return of their lost father from the deep void. Some claim that they gifted us with knowledge and magic, others are claiming that Mystics anger the gods with their dark studies.

MONSTERS

Sage Baizin spent her short life compiling a bestiary of the known fauna, but knew that searching in places too dark, deep or distant would show her things too foul to be recorded on page. Those that seek out monsters to slay usually find their own death before too long.

RUNES AND MAGIC

Those that can decode arcane Runes have access to lost knowledge of the history of men and secret rites that release spells of great power. Mystics believe that this power was left by dead gods and study their tomes jealously, seeking scrolls to further their knowledge and increase their power. A single, intricate Rune can contain as much information as a whole page of common script.

SURVIVING THE WORLD

Adventurers may have impressive skills or access to magic of great power, but no one survives getting their throat cut or falling down a hundred-foot pit. Run, sneak, surrender, or bribe. Whatever it takes to get what you need and escape with your life is just as good as fighting.

GOING BEYOND EXPEDITIONS

There is a long list of brave, dead adventurers. Those that live long enough go on to much greater things as generals, cult leaders, or emperors. There are even stories of those that have uncovered the true power of the Gods and ascended to Godhood themselves.

NEW TO RPGS?

HOW DO YOU PLAY?

One player is the Referee, who describes the situation the other players' characters are currently in. The players may then ask questions and have their character interact with the environment. The Referee will tell the players what happens or if they need to roll dice to determine the outcomes of their actions.

WHAT DO YOU NEED?

A set of polyhedral dice, pencils and paper. The Referee prepares a location for the characters to explore or may use an existing adventure module.

1. CHARACTERS

ROLLING A CHARACTER

Roll a 3d6 for each Ability Score.

STRENGTH — fighting, fortitude, and physical prowess.

DEXTERITY — sneaking, shooting, athletics, and reflexes.

WILLPOWER — calling on divine power, harnessing magic, and self-discipline.

In addition, roll 3d6 as your Extra Roll. You may then swap any two of your rolls. After this the Extra Roll is your starting money in Shillings.

An Ability Score of 10 is the human average.

Roll d6 for your Hit Points, a measure of how safe they are from taking life-threatening Critical Damage. More HP means the character is safer.

Finally, choose one Feature, a Background, and buy some Equipment.

FEATURES

Choose one feature now, and each time you gain a new Experience Level.

✧ ASSASSIN ✧

Your Enhanced attacks against unaware or helpless opponents bypass HP.

✧ BERSERKER ✧

Roll twice for HP and take the better result. After taking first Damage in combat, increase your weapon Damage dice by one and gain Advantage on Saves against Critical Damage till the combat ends.

✧ BRAWLER ✧

Roll twice for HP and take the better result. While not wearing any armour your Armour score is 1. Gain bonus d4 unarmed Damage die. **Advancement:** The bonus die is increased by one.

✧ COMMANDER ✧

Once per combat as an action issue a command to one ally to Enhance their attack this round, or to restore d6hp to them.

✧ HEALER ✧

Restore d6 Ability Score Loss to an ally overnight.

✧ MYSTIC ✧

Can be taken multiple times.

You can read Runic and cast Spells.

Gain Mystic's Focus and Tome containing instructions for two Cantrips and six 1st Circle Spells. Choose a Signature Spell to cast at half its cost.

Advancement: add a new Cantrip and three Spells (of a Circle equal or lower to your Experience Level) to your Tome. Choose a new Signature Spell.

✧ SKILLED ✧

Can be taken multiple times.

Gain Advantage on Saves related to a certain field of expertise: athletics, burgling, stealth, negotiation, etc. While you are not under pressure you don't need to make such Save at all.

✧ SWASHBUCKLER ✧

Roll twice for HP and take the better result. While attacking you can hit a second target, rolling your weapon Damage dice without any bonus dice.

✧ TACTICIAN ✧

Roll twice for HP and take the better result. When performing an attack, you may add a Manoeuvre to it (push, trip, disarm, grapple for their next turn, etc.) The attack is carried out as usual and the opponent must make a Save to avoid an additional effect described by you.

✧ WARRIOR ✧

Can be taken multiple times.

Roll twice for HP and take the better result.

Gain bonus d4 weapon Damage die.

Advancement: The bonus die is increased by one.

CREATING YOUR OWN FEATURES

You can design your own Feature and have it approved by your Referee.

Combat-related features usually roll twice for HP taking the better result.

The usual Feature benefit could be:

- + bonus Damage die for some condition (for Advancement start with d4 and increase by one)
- + additional effect for character's attacks
- + Advantage on some specific set of Saves
- + special trick.

Try to balance new Features with the existing ones.

ANCESTRY FEATURES (OPTIONAL)

If the Referee allows non-human characters (and only during the new character creation), you can choose one of these features instead.

✧ DWARF ✧

You are immune to poison and can see in the dark as if it were a dim light. You are experienced and comfortable in an underground setting.

✧ ELF ✧

You have advantage on Saves against mind-altering magic (hypnosis, sleep, stun, etc.). You are experienced and comfortable in a wilderness setting.

✧ HALFLING ✧

Thanks to your small size you could squeeze through small passages and fit in tight spaces. You can also reroll 1 on any Save and use the new result.

BACKGROUNDS

Choose your character's previous career and think of a reason why they abandoned it to become an adventurer.

✧ CRIMINAL ✧

Gain your criminal tool of choice (crowbar, grappling hook, lockpicks, etc.), a dagger, and a contact in the criminal world.

✧ MINSTREL ✧

Gain a musical instrument. Due to your repertoire you know a lot of legends and tales and have a 4-in-6 chance to recall something relevant from them.

✧ NOBLE ✧

Double your starting money. Your name still carries some weight.

✧ SAILOR ✧

Gain a pet: a talking parrot (STR 6, WIL 6, 2hp, d4 Claws), a small monkey (STR 7, WIL 7, 3hp, d4 Bite), etc. You are knowledgeable in seafaring.

✧ SCHOLAR ✧

Gain a Writing Set, a journal with your notes, and a book about the subject of your specialization.

You have a 4-in-6 chance to know something inside your area of study, and know everything related to your specialization (e.g. History (Archaeology)).

✧ SOLDIER ✧

Gain one martial weapon and a military rank.

CREATING YOUR OWN BACKGROUNDS

You can design your own Background and have it approved by your Referee.

Usually the Background should provide items from character's past life (with a rough value of 10–12 Shillings) and some role-playing benefit.

EQUIPMENT

Ten **Pennies** (p) make a **Shilling** (s) and one-hundred Shillings make a **Guilder** (g).

All characters carry **standard equipment**, including simple clothes, a backpack, basic camping equipment, torches, and a few days' rations.

Unarmed attacks deal d4 Damage.

If two dice are listed, the first one is for **one-handed** weapons, the second one — **two-handed**.

Firearms make a lot of noise and ignore Armour. Reloading firearms in combat requires a full turn while standing still.

You could try to **sell** an item for half its price.

2. PLAYING THE GAME

RULES

Saves

Roll d20 equal or under the appropriate Ability Score to succeed. 1 is always a success and 20 always a failure.

Advantage and Disadvantage

Whenever someone has increased or decreased odds of succeeding on a Save, the Referee may give them Advantage or Disadvantage. Roll twice and take the better or worse of the two rolls respectively. Advantage and Disadvantage cancel each other out.

Taking your Turn

In a combat situation the Referee decides which side acts first. When this is unclear, player characters must pass DEX Saves to be able to act before their opponents. After such initial turn all player characters act together as usual.

On their turn characters can generally move and carry out one action. All characters declare their intentions and after that the dice are rolled.

Attacking

Roll your weapon's Damage die, or for both weapons if wielding two, along with any bonus Damage dice you have. The highest single roll is identified, and the attack causes this much damage.

Ranged weapons cannot be used while engaged in melee combat.

Ganging Up

When multiple attackers target an individual, they roll together and keep the highest result. Once the attack has been resolved, the target cannot be attacked again until their next turn.

Impaired and Enhanced Attacks

Attacks that are Impaired, such as firing through cover, roll d4 Damage regardless of weapon, no bonus Damage dice allowed.

Attacks that are Enhanced by a risky stunt or a vulnerable target gain bonus d12 Damage die.

Manoeuvres

In place of making a normal attack you may spend your turn trying to carry out another manoeuvre, such as knocking an opponent down, snatching an item or fleeing. In these cases the side most at risk makes a Save to avoid consequences.

Armour

Armour subtracts its score from result of any Damage rolls against the wearer.

Total Armour score for a creature cannot exceed 3.

Mounted Combat

Mounted combatants gain +1 Armour and bonus weapon Damage die.

Damage

When taking damage you lose that many Hit Points. If you have any HP left, then the attack was mostly avoided or only a minor wound was inflicted.

When you run out of HP, any remaining Damage is removed from your STR score. Now you must pass a STR Save to avoid Critical Damage.

Blast Damage

Blast attacks affect all targets in the appropriate area, rolling once for each target. If unsure how many targets are affected, roll Damage die.

Critical Damage

Characters that take Critical Damage are unable to take further action until they are tended to by an ally and have a Rest. If they are left untended to for an hour, they die.

Ability Score Loss

The character dies at STR 0. At DEX 0 or WIL 0 the character is paralysed or catatonic respectively, cannot act until Healing and must be carried to safety.

Death

When a character dies the player creates a new character and the Referee finds a way to have them join the group as soon as possible. Alternatively the player may take control of a Hireling or Apprentice.

Morale

The leader of a group must pass a WIL Save to avoid their group being routed when they lose half of their total numbers. Lone combatants must pass this Save when they are reduced to 0hp. This applies to opponents and allies but not player characters.

Retreat

Fleeing to safety under pursuit requires a DEX Save and somewhere to run to.

Rest

A few minutes of rest and a swig of water recovers all of character's lost Hit Points. Resting may waste time or attract danger.

Healing

Ability Score Loss and other serious ailments require the aid of an Expert service or magic to recover.

Assumed Ability Scores

Any Ability Score not listed is treated as 10.

Reaction

When a reaction to a character is uncertain, pass a WIL Save to avoid a negative reaction.

CONDITIONS:

Blinded creatures may require a DEX Save to carry out actions that rely on sight, their attacks are Impaired, and DEX Saves are rolled at Disadvantage.

Hidden creature's attacks are Enhanced, but any attack or other similar action unveils the attacker.

Invisible creature's attacks are Enhanced, attacks targeted at invisible creatures are Impaired.

Stunned creatures don't act on their turn, have disadvantage on DEX Saves, and attacks targeted at them are Enhanced.

Unconscious creatures are reduced to 0hp.

AFTER THE ADVENTURE

Generally the goal of an Adventure is to find out about a mysterious environment, destroy a powerful threat, or seek out mysterious treasures.

EXPERIENCE LEVELS

After completing the requirements for the next Experience Level, you may take a break from adventuring to reflect upon your experience. Describe what the character has been doing during this time, whether humble or grand. After that you move to the next Experience Level. You cannot advance more than one Experience Level in a single session of play.

When advancing to a new Experience Level, you choose a new Feature, gain d6hp and roll d20 for each Ability Score. If the roll is higher than the Ability Score, it increases by one to a maximum of 20.

1. Novice

You are ready for your first Adventure.

2. Proven

You have survived at least one Adventure to a dangerous place, returning to civilisation.

3. Expert

You have survived at least three Adventures since reaching Proven Level.

You can now take on an Apprentice created as a new character.

4. Veteran

You have survived at least five Adventures since reaching Expert Level. You have an Apprentice that has reached Expert Level.

5. Master

You have established or seized control of a Domain of at least one hundred people. You are granted a noble title or create your own.

3. RULING A DOMAIN

Any community of 100 or more people is a Domain. One or more characters may have rulership of a Domain, with the potential to establish a part of the world as their own.

SIZE SCORES AND POPULATION

Size Score, or SIZ, is a measure of the populace of your Domain and may reach a maximum of 20.

SIZ	Populace	SIZ	Populace
1	100	11	30,000
2	300	12	50,000
3	600	13	75,000
4	1,000	14	100,000
5	3,000	15	150,000
6	5,000	16	200,000
7	7,500	17	300,000
8	10,000	18	500,000
9	15,000	19	750,000
10	20,000	20	1,000,000

Each month you must choose a focus for your domain from the following.

Taxation: You gather extra money this month, gaining 1s for each of your populace.

Growth: Roll d20. If this is higher than your SIZ then your SIZ is increased by 1.

Prosperity: You do not need to roll to see if there is Unrest in your Domain this month.

Civil Unrest

At the end of the month roll d20. If this is equal or lower than your SIZ there is Unrest in your Domain. 10% of your population revolts and must be quashed or else they seize control of your Domain.

ARMIES AND WAR

Training Soldiers: 20% of populace are fit for calling into service as poorly skilled conscripts (3hp). A further 1% of your population are professional soldiers (STR 12, 5hp, Novice Warrior). All soldiers must be equipped as required.

Large Battles: When handling large numbers of combatants they should be massed together as a unit. Units have the same Hit Points as a single combatant, but add one bonus weapon Damage die for how many times to one they outnumber their opponents. E.g., a unit of 200 cavemen fighting 50 spearmen outnumber them 5-to-1, gaining 5 bonus weapon Damage dice.

When units take Critical Damage their numbers are halved and they must pass a WIL Save or break and disband. At STR 0 they are wiped out.

Individual attacks against units are Impaired, unless they cause Blast damage.

Unit attacks against individuals are Enhanced and cause Blast damage.

Sieges: Wooden walls have 6hp, Armour 6, and stone walls have 8hp, Armour 8. Reducing a wall to 0hp allows passage over it.

Siege Engines: Cannons and the like cause d12 Blast Damage.

EXAMPLE DOMAINS

Red Hill — Home of the Man-Beasts

Ruler: Black Yur Og, Veteran Shaman.
SIZ 5 (Population 3,000). Stone Walls (Armour 8, 8hp), 4 Rock Throwers. 30 Tribal Champions (2-handed axes), 300 Wild Men (Axe and Shield), 300 Wild Men (Bows).

4. MAGIC

Spells

Written in Runic and found in Tomes and Scrolls. Spells require a few minutes of uninterrupted calm and attention to cast, as well as requiring a set of detailed gestures and incantations. Consequently, Spells are generally impossible to cast in a combat.

Ongoing effects last until you cast another Spell.

Persistent Spells have their effects last as long as you wish or until you cast the same spell again.

Cantrips These minor tricks are not true spells and require you to use your Focus to cast them.

Focus

Every Mystic carries a Focus, typically an orb, wand or staff that allows to instantly cast a Prepared Spell or any Cantrip you know as an action, while performing the proper gestures and incantations.

It can also be used to dispel the ongoing effect of another Mystic's Spell unless they pass a WIL Save.

A Focus doesn't work if you are wearing Armour.

Prepared Spells

During the Rest you can prepare a number of spells equal to your Experience Level to cast using your Focus as an action.

The Spell cast this way deals Damage equal to its Spell Circle \times 2 to the caster ignoring Armour. At 0hp Critical Damage is avoided by a WIL Save.

Speed Casting (optional)

Use this option in place of Prepared Spells rule.

Your focus allows you to cast any Spell you know in a number of combat rounds equal to its Circle + 1. To speed it up, take 2hp Damage ignoring Armour per each round of reduced cast time. This Damage occurs when the spell is cast. At 0hp Critical Damage is avoided by a WIL Save.

Signature Spells

Each Experience Level Mystics choose a Signature spell to cast at half its cost (1hp per Spell Circle).

The Referee may provide Mystics with a list of Spells for their Tome or use the examples below. This is far from all the Spells that exist in the world, the vast majority of which are unknown to any single person.

5. RUNNING THE GAME

Knowing when to Roll

When a player describes what they want their character to do, you generally have three options.

1. It's something the character can do safely.
2. It's not possible. Ask for another approach, perhaps giving suggestions.
3. It might be possible but there's a risk. Roll dice.

A Note on Risk

Generally the Referee should make the players aware if they are taking a risk. A game should have surprises, but players should feel that their decisions in the game have led to the risk that lead to the nasty surprise.

For example, when the characters encounter a monster or hazard that is very likely to be able to kill them outright, the Referee should ensure that the players know this is a possibility. If they want to hack down a door with axes, they should know the noise is likely to alert anyone nearby. Assessing the risk against the possible reward is an important part of the game, so the players should always have what they need to make an informed choice.

Understanding Ability Scores

- 3: Human minimum, severely limited in this area.
- 10: An average human.
- 15: Excellent human ability.
- 20: The human peak, most exceptional geniuses etc.

Understanding Saves

A save is made when a character has put themselves at risk.

STR Save: Avoiding harm through exerting physical force or withstanding strain on your body.

DEX Save: Avoiding harm through quick reactions, whole-body control and grace.

WIL Save: Avoiding harm through focus and control over magic and yourself.

Luck Rolls

Sometimes you'll want an element of randomness without rolling a Save, particularly in situations dictated by luck or those that fall outside of the three Ability Scores. For these situations roll a d6. A low roll favours the players, and a high roll means bad luck for them. The Referee decides what a specific result means for the situation at hand.

Knowledge Rolls

Characters have a 2-in-6 chance to know something outside their area of knowledge and past experiences; experts have a 4-in-6 chance for their wide area of expertise, and know everything about their narrow specialization (e.g. History (Archaeology)).

How Much Damage?

Damage from falling rocks, explosions and other sources outside of normal combat is typically between d4 and d12 and counts independently, unlike damage from usual attacks in combat.

Consider how it would affect an average person. A fall that is quite likely to injure an inexperienced character might cause d6 Damage but a huge rock that would crush most might do d12.

Poison usually causes Ability Score loss and effects like Blindness Impairs their attacks and gives Disadvantage to Saves.

The Core of Good Refereeing

A good Referee gives the players interesting choices to make and ensures that these choices have a meaningful impact on the current situation and progress of the game.

6. TREASURE AND MAGIC

Riches

Different types of treasure, from gems to artwork to functional items, have a certain value. Traders often want to haggle this price or, in the case of items worth thousands of Shillings, they may not be able to afford it at all.

Coins

All coins are valued against the Silver-Standard Shilling (s). One Shilling gets you a decent bed, meal and drink for the night and is the amount a typical labourer earns in a week.

There are a huge variety of coins that are valued against the Shilling, with two being especially common.

Copper Pennies (p) are worth a tenth of a Shilling. One penny buys you a cheap drink in a bad tavern or passage on a ferry.

Gold Guilders (g) are worth one-hundred Shillings. One Guilder gets you a good horse, full set of armour or a valuable piece of jewellery.

Creating New Magic Spells

Use Chapter 4 as a reference of power levels and possible effects when creating new spells.

Rough damage estimate:

- + **Cantrips**: d4
- + **1st Circle**: d4 to d6
- + **2nd Circle**: d6 to d8
- + **3rd Circle**: d8 to d10
- + **4th Circle**: d10 to d12
- + **5th Circle**: d12

Continuous and area-of-effect spells usually deal less damage than instant ones of the same Circle.

Appropriate saves against certain effects:

- + **STR**: physical obstacles, touch spells, metamorphosis and other bodily influences
- + **DEX**: evasion, balance, extinguishing the flames
- + **WIL**: illusions and mind control

Breaking the Rules

Not all magic functions as that of Mystics. Magic can do anything and is not subject to limitations.

Magic Weapons and Armour

Weapons created with magical power often have Runic symbols engraved on them, telling their name, history and purpose. As well as having a Damage die increased by one (up to d10) and ignoring supernatural resistances, magical weapons will have an extra feature, such as bursting into flame when it draws blood or guiding the wielder towards gold. This will never be a matter of simply doing more damage, though some weapons may cause additional effects when they cause Critical Damage, such as turning the victim to stone.

Similarly, magic armour and shields will have an extra feature or offer greater protection against a specific source of damage.

Magic Items

Other magic items could include rings, cloaks, gloves, and pendants. These may grant a continual effect on the wearer or require activation. The effect will usually not be exactly the same as a spell but may be similar.

Consumable Magic Items such as potions will grant a one-off benefit to the consumer.

Wands and Rods have a limited and unknown number of charges. After the first use roll a d4 and write it down. Every time you use the item roll a d6. If you roll over this number, decrease it by one. On zero the item is drained and becomes useless.

7. HAZARDS AND OBSTACLES

Spotting Hazards

As a general rule the presence of a trap or other hazard is always noticed by characters unless they are running, visually impaired or distracted. After this the characters may be harmed through further inaction or lack of caution. The players should consider creative ways of getting around a hazard or disarming it completely. Risky methods may call for a Save or Luck Roll.

Locked Doors

Typically a locked door can be picked by someone with a lockpick, given some time. No Save is required unless there is a risk of triggering a trap, alerting foes or running out of time.

Attempts to use lockpicks and other equipment quickly under pressure generally require a DEX Save and may include having to light a torch while under attack or tying a rope before a friend plummets to their death.

Breaking down a door can similarly be completed without a Save, unless there are risks or pressure, which may require a STR Save. However, breaking down a door always causes lots of noise and can take a long time.

Random Encounters

Anything mobile in an expedition site is unlikely to remain in one place all the time. As such, the Referee should consider having a chance of the party encountering someone or something. Making loud noises increases or decreases the chance of this happening, depending on the nature of the encounter.

When characters explore, rest, cast unprepared spells, or hesitate in a dangerous place, roll a d6.

d6 Outcome

- | | |
|-----|---|
| 1 | Roll for a Random Encounter. |
| 2 | Roll for a Random Encounter. Give a sign that it is nearby or has passed through. |
| 3–6 | Clear. |

Delaying for long enough to have a meal or sleep provokes a d4 roll instead.

EXAMPLE TRAPS

Stupefying Dart Trap

A dart pipe is visible at the base of the chest. Triggered by opening the chest without taking appropriate precautions. Broken darts litter the floor of this room. d8 Damage. d8 DEX loss on Critical Damage.

Balancing Ledge

Must be crossed to reach whatever lies on the other side. Can be done quite safely without pressure, but when having to run or under attack make a DEX Save or fall to the lower level, requiring a rope to climb back up.

The lower level contains crocodiles (STR 13, DEX 5, WIL 5, 9hp, Armour 1, d8 Bite).

Swinging Blade Trap

Eternally swinging over a corridor in a sequence. Can be blocked only by a very strong metal pole or other such objects.

DEX Save to pass through without harm, otherwise taking d10 Damage in passing through.

Grasping Vines

Triggered on nearing strange-looking vines. Take d6 Damage each turn until you break free. STR Save to break free each turn, otherwise you are immobile. Highly flammable.

Cage Pit

A trapdoor is visible unless the character is distracted, sprinting or the vision is impaired. Triggered by stepping onto the trapdoor.

Triggering the trap causes d8 Damage, a metal cage traps the victim until released with a key and an alarm alerts someone unpleasant.

Traitor's Circle

Triggered by entering the circle marked with a symbol depicting a dagger being thrust into a heart.

WIL Save or immediately attack your closest ally, continuing until knocked unconscious. If you pass this Save, you are thrown out of the circle and take d6 Damage.

8. MONSTERS

Monsters are, by their very nature, different to people and animals. Thus they often have special abilities outside of their Ability Scores. An expedition site should contain mostly unique monsters but some examples are given in this section.

Hit Points

Most creatures have between 1d6 and 5d6 HP. Remember that Hit Points are not purely the ability to absorb physical damage but also the monster's cunning and skill in avoiding harm.

Killing Monsters

Monsters are treated exactly the same as characters other than noted exceptions.

Magic

While some monsters may use Spells in the same way as Mystics, some are able to use spells without a Tome or Focus. Monsters do not need to follow the rules.

Armour

Use character armour as a guide for how to represent monsters with tough hides or those large enough to be able to shrug off most weapons.

Damage

Most monsters cause d6 Damage if nothing is mentioned. Some have a bigger Damage die or even bonus Damage dice.

Ability Score Loss and Death Attacks

Particularly deadly creatures may reduce the target's Ability Score if they cannot make a Save, often resulting in a horrible fate if the score is reduced to zero.

A Note on Ability Scores

When assigning Ability Scores 20 should generally be considered the maximum. A huge monster may look like it should have a STR of 30 or more, but consider that large creatures may not fight all that well. They should instead have their size represented by dealing more Damage and having higher Armour score.

MONSTER CONVERSION

EXAMPLE MONSTERS

The Referee should use these examples as the guidance for creating their monsters.

BRAIN LORD

STR 14, DEX 14, WIL 20, 18hp.

Its psychic ability allows it to levitate, project itself to other realities and telepathically issue any command. If the target refuses to obey the command, they lose d8 WIL unless they pass a WIL Save.

Mind Blast: attacks the target's mind with psychic energy for d8 Damage. Critical Damage from this attack affects WIL instead of STR and is avoided by a WIL Save.

Critical Damage in melee: target has its brain extracted and eaten. The Brain Lord absorbs its recent memories.

FILTH EATER

STR 16, DEX 6, WIL 5, 16hp, Armour 1, d6 Bite.

Big, stupid beasts that eat nearly anything they find. Much prefer dead food to alive. Can bark out a very limited vocabulary of common tongue but have little comprehension.

Critical Damage: target contracts filth fever unless they pass a STR Save. If they fail, then for the next 24 hours they are violently ill and do not get the normal benefits from resting.

GAZER

STR 16, DEX 16, WIL 17, 20hp, Armour 1.

Actively seeks to destroy any other lifeforms. Magic does not work within the Gazer's sight. May fire two of the following beams at different targets each turn.

Telekinesis Beam: Up to an elephant-sized target is lifted, moved, or thrown. Living targets thrown this way take d6 Damage but thrown objects may cause up to d12, depending on the size.

Terror Beam: WIL Save or be terrified. If you do anything on your next turn other than freeze or flee, you lose d6 WIL.

Disintegration Beam: d10 Damage. Anyone taking Critical Damage is turned to dust. Will completely destroy static objects up to the size of an elephant.

GELATINOUS CUBE

STR 14, DEX 3, WIL 3, 16hp, Armour 2.

Appears as hazy, wet air until the observer is dangerously close to the cube. A chemical smell may betray its nature from further away. The cube is attracted to noise and heat.

Does not perform normal attacks. Anyone that the cube moves over is engulfed unless they pass a DEX Save to jump aside, assuming there is room to. Those engulfed lose d8 DEX each turn and d6 STR every hour as they are digested. They cannot free themselves but must be pulled from the cube by other means. When the cube takes Critical Damage, it collapses into a puddle of sticky ooze.

GNOLL

STR 12, DEX 12, WIL 7, 9hp, Armour 2 (light armour and shield), axe (d8), 3d6s in stolen coins and trinkets.

Their stink is highly recognisable and spreads throughout their surroundings. 1-in-6 chance of being non-hostile. Can be bargained with but are only really interested in meat, preferably alive.

GOBLIN

STR 8, DEX 14, WIL 8, 4hp, dagger (d6).

Mischievous creatures that can cast Cantrips. Can easily be bribed with items that they think are pretty.

HOOK HORROR

STR 15, DEX 8, WIL 6, 7hp, Armour 3, d10 Hooks.

The ten-foot tall horror stalks tunnels and caves, using its audible clicking as a form of echolocation. Its vision is very poor and it is easily disoriented by loud noises.

Anything dog-sized or smaller is potential food to be swallowed whole when dealt Critical Damage, causing d6 STR loss each round after swallowing. It will treat anything larger than this as a threat to its territory and fight fiercely, but will avoid anything larger than itself.

HOOTBEAR

STR 15, DEX 6, WIL 5, 10hp, Armour 1, d10 Claws.

Constantly gives out subsonic hooting, used to sense its surroundings. Thus you can never sneak up on one unless its hearing is somehow impaired.

It can give out a single, boneshaking hoot that causes d6 Damage to everyone nearby. Anyone reduced to 0hp by this hoot is not at risk of a Critical Damage, but must pass a STR Save or be incapacitated.

LANDSHARK

STR 17, DEX 8, WIL 8, 18hp, Armour 3, d8 Bite.

Carves through earth as if it were water, using this to lay in ambush for prey. If it fears for its life, a Landshark may cause a cave in. Falling rocks will cause d6 Damage but anyone that stays long enough to be buried takes d10 Damage. The Landshark will have burrowed away before this point.

ORC

STR 11, DEX 9, WIL 8, 5hp, Armour 2 (piecemeal armour and shield), martial weapon (d8).

Amoral minions that are rarely seen outside of the service of some foul leader and vary hugely in appearance from one master to the next.

PHASE PANTHER

STR 16, DEX 18, WIL 6, 13hp, d8 Clawed Tentacles.

The beast's displaced image grants it Advantage on Critical Damage Saves. Will attack any other living things for fun without provocation.

PURPLE WORM

STR 20, DEX 3, WIL 5, 30hp, Armour 3, d10 Sting.

Critical Damage: target is stung, losing 3d6 STR.

Could try to swallow a medium or smaller creature. The target must pass a DEX Save or be swallowed whole, losing d10 DEX each turn and d8 STR every hour as they are digested. When rolling against Critical Damage, the worm must succeed on an additional STR Save or regurgitate all swallowed creatures.

RED DRAGON

STR 20, DEX 10, WIL 12, 25hp, Armour 3, d10 Claws.

Can speak but generally chooses not to unless properly motivated.

Fire Breath: d6 Fire Damage to everyone within the blast. Also causes d6 Fire Damage at the end of their next turn until DEX Save is passed or any other way to put out the flames is found.

Red Dragons instinctively hoard treasure, particularly gold items. A dragon's hoard will be worth 5d20g. If properly harvested, dead dragon's parts will be worth 100g to specialist buyers.

RUST MONSTER

STR 10, DEX 12, WIL 5, 6hp, d6 Bite.

Does not normally attack. Able to turn metal into a rust-like dust, which it then consumes. If a melee opponent is carrying a metal weapon, shield, or armour, the Rust Monster will turn one of these to rust as an action unless they pass a DEX Save.

SKELETON

STR 10, DEX 13, WIL 12, Armour 2 (only against piercing attacks such as arrows and spears), 5hp, blunt sword (d6).

When a skeleton would be killed by physical attacks, it is smashed into at least two separate pieces. Unless they are kept apart, these will reform on the skeleton's next turn, remaining at 0hp. Each half will continue to fight, but the half without a sword causes only d4 Damage.

SNAKE DEMON

STR 17, DEX 17, WIL 16, 18hp, Armour 1, six swords (6d6, can target multiple melee opponents).

Snake Demons are charged with overseeing hellish operations and leading lesser minions. They love single combat and will never turn down a duel. They can cast the following spells as an action.

Soaring Flight: The caster can fly quite swiftly until they touch the ground or take damage.

Soul Barrier: Ghostly visions of tortured souls form a barrier, screaming and lashing out. Anyone passing through this barrier takes d8 Damage and loses d6 WIL if they take Critical Damage.

STINKFROG

STR 10, DEX 13, WIL 7, 6hp, Armour 1, spear (d8).

Attacks without provocation and generally try to lay an ambush for their targets. Amphibious and able to hop several times their own height. Natural animals show a strong animosity towards Stinkfrogs and will attack them in an attempt to drive them away.

9. EXAMPLE OF PLAY

Three player-characters and their hireling torch bearer have been delving deep into a strange underground complex they stumbled on in an inhospitable desert.

Referee: The base of the long staircase leads into a spectacular room, some 30ft high and equally wide. Its walls look like an intricate mosaic but the tiles are constantly shifting in colour. Waves of differing hues wash across the walls and the centre of the floor is dominated by a six-foot-wide circular shaft.

Ezekiel (Mystic): *(Sketching down the room on his rough map)* Are there any exits other than the way we came?

Referee: Just the shaft in the middle of the room.

Toku (Warrior): Well, this is a dead end. My hunter's instincts were right!

Ezekiel: The walls look strange...I'm being very careful not to touch them and tell my torch bearer to do the same.

Toku: Oh come on, we hired him because he's disposable! Maybe Uthred should try touching them.

Uthred (Warrior): I'm not scared of the wall, but I'm not stupid. I'll try tapping the wall with the handle of my axe.

Referee: The pattern of the tiles doesn't seem to respond, but as you're inspecting them more closely you can feel that they're giving off a slight heat.

Uthred: Enough to burn me?

Referee: Doesn't look like it, only a slight heat.

Uthred: I place my hand boldly against the tiles.

Referee: As soon as Uthred's hand touches the wall the shifting colours stop and a pulsing blue pattern starts to radiate from around Uthred's hand.

Ezekiel: Stand by for his head exploding...

Uthred: You worry too much! How do the tiles feel?

Referee: They feel much like you'd expect a smooth mosaic too, but they are giving off a faint warmth.

Uthred: Huh, weird. Well, I'll take my hand off the wall and go check out the shaft.

Referee: As soon as you remove your hand from the wall, it starts to shift colours again and you now see the tiled shape of a person, looking almost like your own reflection. Barely a second later the room is filled with crackling noise and the tiled visage of Uthred somehow steps out of the wall, hefting the axe from its back and taking up a combat stance.

Toku: Right, I'm not giving this thing a chance to pull us into the wall or whatever it's going to try. I leap at it with my daggers.

Referee: What everyone else is doing?

Uthred: I'll have at it with my axe, trying to drive it away from Ezekiel and the torch-bearer.

Ezekiel: I'll enhance Toku's attack with my Guided Strike cantrip.

Referee: Okay, roll for damage.

Toku: *(Rolls 2d6 (two daggers) + d12 (enhanced attack), taking the highest result)* That's a 6!

Uthred: *(Rolls d8 (weapon damage) + d4 (bonus die), taking the highest result)* That's 7 damage!

Referee: *(Subtracts 7 damage and notices that the opponent is now at 0hp, with 3 damage left over)* You kick the thing back, knocking it off balance and cutting through its side. *(Rolls a STR Save vs Critical Damage, succeeding)* The copy roars out in static fuzz but it's still standing.

Uthred: There's only room for one Uthred here!

Referee: The copy of Uthred drops its axe on the ground and reaches forward to try and grab Toku. Give me a DEX Save.

Toku: *(Rolls a DEX Save)* Erm... that's a 20.

Referee: *(Over the groans of the table)* The creature grabs Toku and tries to push him against one of the

walls. A blue pulsing pattern forms on its surface. A moment later the colours shift into Toku's shape and the copy steps forward from the wall. Over to you guys.

Ezekiel: I never thought I'd have to choose between killing Toku and Uthred. I'm going to use the Chill Touch spell I have held to destroy the copy of Uthred.

Uthred: And if he's still standing after that I'll try to chop his head off!

Referee: It gets a STR Save to resist the effect (*Rolls a STR Save*), but it fails! Roll to see how much STR Uthred's copy loses.

Ezekiel: (*Rolls d4 for STR loss, as dictated by the spell*) Four!

Referee: (*Checks his notes to see that this reduces the creature's STR to zero*) It's enough to drain the energy from this thing. The touch causes the colour to fade from the being as it falls motionless to the ground and snaps out of existence, completely destroyed.

Uthred: Yes!

Referee: Ezekiel, don't forget to take 2 damage from casting the spell. Also, you should be aware that you've been making quite a lot of noise in this room.

(*Secretly makes a Random Encounter Roll to see if any nearby monsters have noticed the noise. A roll of 1 indicates that encounter should happen, so he rolls on the hostile encounter table he has prepared for this area.*)

Ezekiel: I don't like the sound of this.

Referee: You notice the sound of something descending the staircase. Remember that weird horse-like creature with skin like a super-hard tree bark you were ambushed by last session?

Uthred: Sure, we knocked it down that pit and fled like heroes.

Referee: Well, this thing looks almost identical, but rather than being horse-sized it's large enough to be barely able to squeeze into the staircase. Its jaws look large enough to be able to swallow you whole and its forelegs end in grasping claws spanning some

six feet. Needless to say it's squeezing down the staircase with you in its sights and it doesn't seem friendly. (*Fails a WIL Save for the copy of Toku, as the sight of this thing is enough to scare it*) The copy of Toku sees this thing and immediately crawls back into the wall, fading into the tiles.

Ezekiel: I don't really like the idea of being swallowed whole. What are our chances of running through its legs?

Referee: It's pretty tightly packed into the stairway. If you want to try, it would certainly require a tough DEX Save.

Uthred: The smaller monster was afraid of fire, wasn't it? Perhaps we should send the torch bearer over to try and keep it at bay.

Referee: He looks pretty hesitant...he'd need to pass a WIL Save to follow such a suicidal order. You never know, though, it could work!

Toku: Running past it and trying to scare it seem needlessly risky when we have a perfectly good exit right here!

Uthred: The shaft? Does it look like the creature could fit down there?

Referee: Unlikely, it's certainly too big to be able to do so easily.

Ezekiel: As suicidal as it sounds it might be our best hope. Can I throw a coin or something into the shaft?

Referee: As you flick a half-shilling down the shaft you hear a distant splash a few seconds later.

Toku: Water!

Ezekiel: That's optimistic...how do we know it isn't acid or something? I figure we can find a way to distract it long enough for us to escape back up the staircase.

Referee: While you're formulating this plan the creature has managed to force itself into the room, brushing against the tiled wall, which sends out blue ripples.

Uthred: Oh crap, this isn't going to end well.

Ezekiel: Fine! Into the hole!

Toku: Trust me! I'll even leap it first.

Referee: You're all leaping down now?

(The group all nod reluctantly)

Referee: You plunge into the darkness of the shaft, falling for a few seconds before splashing into what feels like ice cold water, deep enough for you to fall into safely. The bearer's torch is extinguished and you're barely able to get your bearings in the pitch-black pit before you feel a tingling sensation over your bodies. WIL Saves all round!

(Groans fill the table)

APPENDIX A: CLASS-IC EDITION

Instead of using Features and Backgrounds, you could use three original “Into the Dungeon” classes.

CHOOSING A CLASS

Every character chooses a Class from the following:

Warrior: An adept of martial training.

Disciple: A devoted follower of a set of teachings.

Mystic: A student of runic magic.

✧ WARRIOR ✧

Warriors are at their best in a combat situation. They hit the hardest, can take the most punishment and control the battlefield with combat techniques.

Defensive Training

When rolling for the Hit Points (including your starting roll) roll twice and take the better result.

Offensive Training

Gain bonus weapon Damage die.

Manoeuvres

When performing an attack, you may add a Manoeuvre to it. The attack is carried out as normal and the opponent must make a Save to avoid an additional effect described by you.

Examples include being pushed, tripped, disarmed, grappled for their next turn etc. A Manoeuvre cannot cause extra damage on its own, but it may make use of an environmental hazard that would cause extra damage to the target. The Referee should be generous in allowing the player to think of interesting and imaginative Manoeuvres for their attacks.

✧ DISCIPLE ✧

Disciples follow a particular Creed which guides their way of life. In return, they can perform daily Rituals and carry a Symbol that becomes imbued with power.

Creed

Choose a Creed to follow. This determines what Rituals you can perform, your Symbol and the laws you must live by.

If you break any of your Creed laws you must atone by actively enforcing each law of your Creed. Any benefits from Rituals or Symbols are immediately lost until the atonement is complete.

Symbol

A Disciple’s symbol bestows certain powers as long as they remain blessed.

Rituals

Each Ritual you know can be activated once each day as an action.

✧ MYSTIC ✧

Mystics study the science of magic. They decode the arcane Runes that give instructions of the precise methods of casting spells.

Runic

You can read and speak Runic. The language is particularly found on ancient scrolls, spell tomes and magical artefacts.

Spellcasting

You have a Mystic’s Focus and Tome containing instructions for two Cantrips and six 1st Circle Spells. Choose a Signature Spell to cast at half its cost.

See **Chapter 4** for additional information.

AFTER THE ADVENTURE

Followers and Apprentices

Followers have average Ability Scores and 3hp, do not have a Class nor advance in Experience Levels.

You can have up to $WIL / 2$ (rounded down) Followers and Hirelings at a time. You need not take all of your Followers on every Adventure.

You can only have one Apprentice at a time, created as a new character of your class.
