1. CHARACTERS

ROLLING A CHARACTER

Roll a 3d6 for each Ability Score.

STRENGTH — fortitude and physical prowess.

DEXTERITY — sneaking, athletics, and reflexes.

WILLPOWER — calling on divine power, harnessing magic, and self-discipline.

In addition, roll 3d6 as your Extra Roll. You may then swap any two of your rolls. After this, the Extra Roll is your starting money in Shillings.

An Ability Score of 10 is the human average.

Roll d6 for your Hit Points, a measure of how safe they are from taking life-threatening Critical Damage. More HP means the character is safer.

Finally, choose one Feature, a Background, and buy some Equipment.

Choose one Feature now, and each time you gain a new Experience Level.

✦ HEALER ✦

Gain 5s worth of healing supplies. While resting, spend 5s worth of healing supplies to restore d6 Ability Score Loss to an ally or yourself, or take a 4-in-6 chance to subdue some other ailment.

Healing supplies are available for purchase in most settlements and can be used by Healers only.

2. PLAYING THE GAME

RULES

Saves

Roll d20 equal or under the appropriate Ability Score to succeed. 1 is always a success and 20 is always a failure.

Advantage and Disadvantage

Whenever someone has increased or decreased odds of succeeding on a Save, the Referee may give them Advantage or Disadvantage. Roll twice and take the better or worse of the two rolls respectively. Advantage and Disadvantage cancel each other out.

Taking your Turn

In a combat situation, the Referee decides which side acts first. When this is unclear, player characters must pass DEX Saves to be able to act before their opponents. After such initial turn, all player characters act together as usual.

On their turn, characters can generally **move** (or **change items** they are holding instead) and carry out one **action**. All characters declare their intentions and **after that** the dice are rolled.

Attacking

Roll your weapon's Damage die, or for both weapons if wielding two, along with any bonus Damage dice you have. The highest single roll is identified, and the attack causes this much damage.

Ranged weapons cannot be used while engaged in melee combat.

Ganging Up

When multiple attackers target an individual, they roll together and keep the highest result, plus 1 point of Damage for each additional attacker, up to +5. Once the attack has been resolved, the target cannot be attacked again until their next turn.

When some of these attacks directly target Ability Scores, they are grouped together by Ability Score targeted and resolved by the same Ganging Up rule, separately from normal attacks.

Ganging Up: Easy Mode (optional)

For a more "cinematic" combat feel, you may forgo bonus damage from additional attackers.

Impaired and Enhanced Attacks

Attacks that are Impaired, such as firing through cover or a resistant target, roll d4 Damage regardless of weapon, no bonus Damage dice allowed.

Attacks that are Enhanced by a risky stunt or a vulnerable target gain bonus d12 Damage die.

Enhancement and Impairment negate each other.

Manoeuvres

Instead of making a normal attack, you may spend your turn trying to carry out another manoeuvre, such as knocking an opponent down, snatching an item or fleeing. In these cases, the side most at risk makes a Save to avoid consequences.

Armour

Armour subtracts its score from the result of any Damage rolls against the wearer.

If the Damage bypasses HP, it is still affected by target's Armour unless stated otherwise.

Total Armour score for a creature cannot exceed 3.

Mounted Combat

Mounted troops in melee gain +1 Armour and bonus weapon Damage die against unmounted opponents.

Damage

When taking damage, you lose that many Hit Points. If you have any HP left, then the attack was mostly avoided or only a minor wound was inflicted.

When you run out of HP, any remaining Damage is removed from your STR score. Now you must pass a STR Save to avoid Critical Damage.

Blast Damage

Blast attacks affect all targets in the appropriate area, rolling once for each target. If unsure how many targets are affected, roll Damage die.

Critical Damage

Characters that take Critical Damage are unable to take further action until they are tended to by an ally and have a Rest. If they are left untended to for an hour, they **die**.

Ability Score Loss

The character **dies** at STR 0. At DEX 0 or WIL 0 the character is **paralysed** or **catatonic** respectively, cannot act until Healing and must be carried to safety.

When a character dies, the player creates a new character and the Referee finds a way to have them join the group as soon as possible. Alternatively, the player may take control of a Hireling or Apprentice.

EXPERIENCE LEVELS

The leader of a group must pass a WIL Save to avoid the group being routed when they lose half of their total numbers. Lone combatants must pass this Save when they are reduced to 0hp. This applies to opponents and allies but not player characters. Mindless or fearless opponents are exempt as well.

Retreat
Fleeing to safety under pursuit requires a DEX Save and somewhere to run to.

Rest
A few minutes of rest and a swig of water recovers all of character's lost Hit Points. Resting may waste time or attract danger.

Healing
Ability Score, Loss and other serious ailments require the aid of an Expert service or magic to recover.

Assumed Ability Scores
Any Ability Score not listed is treated as 10.

Reaction
When a reaction to a character is **uncertain**, pass a new character.

Peacemaker
One per character, obeys simple commands.

CONDITIONS:
Blinded creatures may require a DEX Save to carry out actions that rely on sight, their attacks are Impaired, and DEX Saves from external threats are rolled at Disadvantage.

Hidden creature's attacks are Enhanced, but any attack or other similar action unveils the attacker.

Invisible creature's attacks are Enhanced, attacks targeted at invisible creatures are Impaired.

Stunned creatures cannot perform actions on their turn and have disadvantage on DEX Saves; attacks targeted at them are Enhanced.

Unconscious creatures are reduced to 0hp.

1. Novice

You are ready for your first Adventure.

2. Proven

You have survived at least **one** Adventure to a dangerous place, returning to civilisation.

3. Expert

You have survived at least **three** Adventures since reaching Proven Level.

4. Veteran

You have survived at least **five** Adventures since reaching Expert Level. You have an **Apprentice** that has reached Expert Level.

5. Master

You have established or seized control of a Domain or at least one hundred people. You are granted a noble title or create your own. Other characters may assist you in achieving this goal, though you are the only one becoming a Master while doing so.

Alternative Experience Progressions (optional)
If the adventure progression of 1–3–5 feels too quick, use the progression of 3–5–7 instead. If you run a big non-quantifiable module, leveling up will cost gold and treasure gained from adventuring and spent on training: 1g–5g–25g–125g.

AFTER THE ADVENTURE

3. RULING A DOMAIN

Any community of 100 or more people is a Domain. One or more characters may have rulership of a Domain, with the potential to establish a part of the world as their own.

SIZE SCORES AND POPULATION

Size Score, or SIZ, is a measure of the populace of your Domain and may reach a maximum of 20.

SIZ	Populace	SIZ	Populace	SIZ	Populace
0	<100	7	7,500	14	100,000
1	100	8	10,000	15	150,000
2	300	9	15,000	16	200,000
3	600	10	20,000	17	300,000
4	1,000	11	30,000	18	500,000
5	3,000	12	50,000	19	750,000
6	5,000	13	75,000	20	1,000,000

At the **start** of each month, choose Domain Focus — this goal is achieved at the **end** of the month:

- **Taxation:** You gather extra money this month, gaining 1s for each of your populace.
- **Growth:** Roll d20. If this is higher than your SIZ, then your SIZ is increased by 1.
- **Conscription:** Recruit an army (see **Training Soldiers** below). You cannot repeat Conscription until your SIZ increases. Your next Growth roll will have Disadvantage.
- **Prosperity:** You do not need to roll to see if there is Unrest in your Domain this month.

Unrest: At the **end** of the month, roll d20. If this is equal or lower than your SIZ, there is Unrest in your Domain. 10% of population revolts and must be quashed or they seize control of your Domain.

ARMIES AND WAR

Training Soldiers: 20% of populace are fit for calling into service as poorly skilled conscripts (3hp). A further 1% of your population are professional soldiers (STR 12, 5hp, Novice Warrior). All troops must be equipped as required.

An army that won a battle against an equal or stronger opponent can be trained further at the rate of 1% of your population per month.

Conscripts become soldiers (1s/person), and soldiers become champions (10s/person) (STR 14, 10hp, Proven Warrior).

Large Battles: When handling large numbers of combatants (usually 10 or more), they should be massed together as a unit. Units have the same Hit Points as a single combatant, but add 1 Damage for as many times to one they outnumber their opponents (or subtract if outnumbered), from -5 to +5. E.g., a unit of 200 cavemen fighting 50 spearmen outnumber them 4-to-1, gaining 4 bonus damage.

When units take Critical Damage, their numbers are halved and they must pass a WIL Save or break and disband. At STR 0 they are wiped out.

Individual attacks against units are Impaired. Unit attacks against individuals are Enhanced, have +5 Damage bonus, and cause Blast Damage.

Unit attacks that cause Blast Damage against units have bonus weapon Damage die.

Sieges: Wooden walls have 6hp, Armour 6, and stone walls have 8hp, Armour 8. Reducing a wall to 0hp allows passage over it. Walls and other defensive structures usually ignore damage from anything but siege engines and such.

Siege Engines: Cannons and the like cause d12 Blast Damage.

See **Structures and Sieges in Appendix A** for more details and additional information.

4. MAGIC

Spells

Written in Runic and found in Tomes and Scrolls. Spells require a few minutes of uninterrupted calm and attention to cast, as well as requiring a set of detailed gestures and incantations. Consequently, Spells are generally impossible to cast in combat.

Mystics can cast any Spell of a Circle **equal or lower** to their Mystic Level.

Ongoing effects last until you cast another Spell, though summoned extraplanar beings remain.

Persistent Spells have their effects last as long as you wish or until you cast the same Spell again.

Cantrips

These minor tricks are not true Spells, do not interrupt ongoing effects of the previous Spell, and require you to use your Focus to cast them.

Focus

Every Mystic carries a Focus, typically an orb, wand, or staff that allows to instantly cast a Prepared Spell or any Cantrip you know as an action, while performing the proper gestures and incantations.

It can also be used to **dispel** the ongoing effect of another Mystic's Spell unless they pass a WIL Save.

A Focus does not work when wearing armour.

Prepared Spells

During the Rest you can use your Tome to prepare a number of Spells equal to your Experience Level to cast using your Focus as an action.

Casting a Prepared Spell causes Damage equal to its Spell Circle × 2 **to the caster** ignoring Armour. At 0hp, this Damage targets WIL instead of STR: pass a WIL Save or fall unconscious for a few minutes.

Optionally, this will result in a **Magic Mishap** as well (see ?? in Appendix A).

Signature Spells

Each time you take Mystic Feature, choose a new Signature Spell to cast without preparation and at half its cost (1hp per Spell Circle).

Scrolls of new Spells found by Mystics are usually attached to the Tome for the convenience of usage. See ?? in Appendix A for the additional information on creation of Focuses and Scrolls.

Scroll Activation (optional)

Any character can activate a Scroll as an action. The Spell is cast as Signature, destroying the Scroll. Succeed on a WIL Save or suffer a **Magic Mishap** (see ?? in Appendix A).
